- **NHS Mental Health Helpline:** call **0800 014 9995** - available 24/7

Stay well physically, mentally, and socially

There are a lot of things you can do to help you stay well - the five ways to wellbeing are worth keeping in mind every day:

1 Connect

Talking to others regularly can help if you're feeling worried - your friends, family or one of the support services overleaf.

If you'd like help with getting connected digitally, please call the **DigiKnow Helpline** on **0753 712 7095**

2 Keep active and healthy

Movement can really help your mood - try to get some exercise every day. Advice can be found at www.healthystockport.co.uk

It's also important to eat healthy, balanced meals and stay hydrated by drinking enough water. Try to avoid smoking, alcohol and recreational drugs

3 Learn something new

Spending time on activities you enjoy can really help your mental health, but you could also learn something new.

Without putting yourself under any pressure, why not try a new hobby or learn a new skill? Visit www.stockport.gov.uk/events for new activities to try

4 Give to others

Acts of giving and kindness can improve your own mental wellbeing.

This could involve telling someone how much you appreciate them, or getting involved with volunteering in Stockport if you can - you can find more information by visiting www.stockportvolunteerhub.org.uk

5 Take notice

Take breaks from the news and social media and make time to notice your senses, feelings and the world around you.

Paying more attention to the present moment is a good way of escaping cycles of negative thoughts and feelings and improve your mental wellbeing. Visit www.penninecare.nhs.uk/mindfulness for more
