

# Broadstone Bugle

## Issue 31 - 2018

Dear Readers,  
Welcome to the first edition of the Broadstone Bugle for 2018-19, full of interesting stories and facts about what has been going on both inside and outside of our school this half term. We have lots of new writers from Y2 to Y6 ready to entertain you with their stories. We hope you enjoy reading this edition of the Bugle.

Mr. Langley

### New to Year 2

This term everyone has been pretty settled in the New Year and I am loving the Maths lessons with Miss. Healy. My class are all properly excited for Halloween Trick or Treating and I am happy with having Mrs. Keane as my teacher and I think the rest of 2MK are happy too.

### Football Club

Football Club is where your year group (and a few years near to yours) learn football skills. If you well then you go on to take part in school matches.

You will automatically be selected to play games against other schools like St. Thomas's and Whitehill.

It is a thrill to take part representing Broadstone Hall Primary School. If the Sports Coaches think you are well behaved, they will pick you to be on the Year 6 school football team. We are hopefully playing our first match this week.

### Year 3 Topic

My favourite thing we have started is how to make an animal trap. We had partners and we had to make our animal trap. We had to use what the cavemen used because we were learning about cavemen in English. After we drew it, we had to write it on a sheet of paper for planning. Then we had to write it in our books with all the corrections in it. Once we finished we drew a tiny version of it, but only if you finished it in time. It was super fun and I didn't want to stop. Me and my friend Leila did a windy down one so it gets your animal and then you cook it and eat it. It is fun. You could do it in Forest School lessons too.

### Our First Half Term of the School Year

In the first few days back we did a lot of fun and crafty things! We made some birthday cards so when it's somebody's birthday they can pick which card they want! In Maths we did column addition where we can add two very high numbers together.

In Reading we are looking at the book *Gangsta Granny* and we wrote a diary entry about one side of Gran which is her being ordinary and her other side is which is suspicious.

In English we are learning about nouns, proper nouns and expanded noun phrases. In ICT we have been trying to make a Pong game on scratch which Mr. Owen has helped us step by step.

In the morning my class have French which Madame Bull teaches. We learn all sorts of French every Monday when we do it and in Year 4 we are trying to learn some songs to do with the weather and we are also trying to say certain weathers like sunny. This first school term has flown by for me!

### New Y6 Football Rota!

The Year 6 boys were "rested" from playing football for a week, and the girls filled in their slots.

When the week was finished, Mr. Bagguley and Mrs. Marron decided it went really well!

Some girls don't like playing with the boys, so we made new football rules and took a vote, 'boys and girls play separately' or, 'we half the year group and switch between days, so it's an equal 50/50' and the winning vote was.....boys and girls play separately! Many people had different opinions, but that decision won by 5.

So now, girls play football on their own one day, and boys play another. So if the boys played on the Muga Pitch on Monday break AND on the Small Pitch on Wednesday, they would only play one day and girls would play the other.

Do you agree with this change? Everyone seems to be happy with it, nobody has any concerns. And same football rules will apply (obviously)!

“THE JABBERWOCK, WITH EYES OF FLAME,  
CAME WHIFFLING THROUGH THE TULGEY WOOD”

### Scary Poems Assembly 5JG

In 5JG, we did an outstanding assembly all about scary poems, modern and old, famously well known to local, tragic and petrifying monsters to your own spooky shadows...

One you may have heard of “**THE JABBERWOCKY**” by Lewis Carrol or to give you his proper name “Charles Dodgson” giving information on the mysterious...

You will have seen our assembly already and I hope you enjoyed it because we worked very hard at producing the astounding show.

I who am writing to you now, was the very well-known Alice, who was the star in Alice in Wonderland, Alice through the Looking-Glass and What She Found There.

Our other poem Mr. Shadow's Shoes was a modern poem by Paul Cookson who has written it. This poem's SCARE FACTOR was increased by getting quieter and quieter then shouting BOO! therefore scaring the audience out of their skins.

### Secret Friend

In Year 3 we are doing a secret friend thing where you give gifts to make someone happy without you knowing who they and I just think it's a really nice idea. I like the idea of the secret friend because you get a free gift. You don't know who it's from unless it's your choice and you listened when we were telling our teacher. I think it's just a really nice thing when it comes to giving gifts because it's just something free that makes your day better and turns that frown upside down and makes you feel happy.

### What It Takes To Make People Happy

1. Get something like a kit kat
2. Sneak that gift in their tray whilst they aren't looking
3. Watch their reaction when they open their tray

### THE MAYANS

In year 5/6, we have been learning about THE MYSTERIOUS MAYANS! It's a fun topic. We are reading a book called the Fifth Codex. We also made yummy guacamole, it was good fun. It was delicious because we ate it with chips.

1. We chopped the tomatoes
2. We added the avocado
3. We added spices and lemon

### Twist of Gold

This is a book about two young kids call Sean and Annie who have to leave home because of the Irish potato famine in Ireland and a plague approaching. A kind Dragoon met them at the river every day and gave them 3 small loaves of bread for Sean, Annie and their mum. One day they had to say bye to their mum because she was dying and the torch was handed to Annie. The Dragoon paid for them to go on a ship to America and said goodbye. They made it to America and met a guy called Little Luke and two old ladies one called Henry and Mather who were very wealthy living in a mansion. That is as far as we have got at the moment, but we are really enjoying it.

### What we did in my class last Friday

First it was Maths and I did lots of column addition. It was so much fun. After that, we did English and we read about Gangster Granny. In Golden Time, I drew pictures of flowers and love hearts. After that, it was home time so I got my coat and bag and I went home.

### Twist of Gold by Michael Morpurgo

In Year 5 we have been reading a book and it's about two little kids that are called Sean and Annie. They lived in Ireland when the potato famine was around so they got on a ship and left their mum who was dying. The children had a torque, which is a necklace type of thing but it got taken off them by the mean Captain and their ship was wrecked. So far it is a very exciting book and I can't wait to see what happens next.

### Stone Age Y3

We learn about the Stone Age and we needed to write about a boy's trip. In the trip, the boy fell in a magic hole which was actually a portal to the Stone Age 10,000 years ago. As soon as he fell in, there was a scruffy, little girl and she took the 8 year old boy to their camp. He felt miserable as he had no clue where his parents were. He felt lonely and terrified.

This is as far as we have got but we are really enjoying the story.

### YR 4 Science

In Science we have been studying states of matter and their properties. We did an experiment to work out how quickly a liquid travels. For example glue took 7.47 seconds to travel down a slope. To explain how the particles take shape we did an activity acting out the particles formation.

In some materials the particles can be solid, liquid and gas, the example we looked at was water. After that we listed some materials that were in each category and what made it in that category.
