

Dear Parents,

In an effort to improve communication between pupils and their teachers during this uniquely challenging time, we have set up class e-mail accounts. The idea is that children can e-mail work to teachers and receive feedback, during school hours. Teachers will log onto the e-mail accounts and respond to pupils work and queries during the school day, when they are not on duty looking after children of key worker parents at school.

This service will only be available during the lockdown period and once we are back in school again, it will be discontinued.

Please do not use this e-mail address for general queries, questions or complaints, these should all be directed to the school office in the first instance.

We hope that your children find this service useful, during a time when they are not able to have their normal contact with their class teacher.

Thank you, Mr Langley
