

We have had requests for children to change their library books, or to be able to access new reading material. Unfortunately, we cannot open the school library due to social distancing but we have come up with an online alternative!

Below you will find a link for an Online Reading Scheme which will enable to access a multitude of books from age 4-14!

Please can we remind parents to choose an AGE APPROPRIATE book WITH your child.

Disclaimer: The website allows access to all categories, so we are entrusting parents to assure that children are only selecting and reading books for their age range.
